INTRODUCTION

Emergencies in schools must be addressed in an expeditious and effective manner. Schools are at risk of acts of violence, natural, and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law.

Project SAVE is a comprehensive planning effort that addresses prevention, response and recovery with respect to a variety of emergencies in schools.

Charter schools are considered districts in and of themselves. Therefore, even as just one school with just one building, we are required to have both District and Building Level Project SAVE School Safety Plans. This document is 691 Saint Nicholas combined District-wide and Building-Level Project SAVE School Safety Plans (the “Plan”).

The Neighborhood Charter School: Harlem supports the SAVE Legislation and is engaged in a robust planning process to create a School Safety Plan for the 2023 - 2024 school year. Our plan development process includes meetings with the local police, security, school faculty and staff, and students to request participation in creating the plan, and feedback in reviewing the final plan. All constituencies will have full access for input.

The NCSH Safety Team developed the Safety Plan detailed below.

Our goals in creating and implementing our School SAVE Safety Plan are:

- To create an atmosphere and set of practices that prevent violence or unsafe conditions
- To create/implement a plan that will minimize the effects of serious violent incidents and emergencies
- To have an effective response plan for all predictable safety concern situations
- To produce a document that can be used as the basis for informing and training all school constituencies in regard to keeping our school safe.

Plans will be produced for the following multi-hazard situations:

1. Medical emergency
2. Shooting
3. Bomb threat
4. Building Collapse/Explosion
5. Chemical Spill or Natural/Propane Gas Leak
6. Fire Safety/Fire/Evacuation Drills
7. Shelter-In
8. Lockdown Drills
9. Missing Student Protocol
10. Rapid Dismissal

Critical Security Notifications and Offices (These will be added in the final draft)

RISK REDUCTION/ INTERVENTION STRATEGIES

Prevention/Intervention Strategies

NCSH strongly believes in the wisdom of implementing violence prevention and intervention protocols as a primary means of ensuring student/school safety. These protocols take the form of Program Initiatives, Training/Drills/Exercises, School Security Policies and Procedures, and Maintenance of Educational Agency contact information as per the below:

NCSH will also create a positive, safe learning environment for students by implementing a community service program and by creating school schedules that minimize potential for conflicts or altercations.

Training, Drills and Exercises

- As part of plan development, the Safety Team will review emergency response plans with security professionals and administrators from other schools to ensure their feasibility and thoroughness.
- The Safety Team will conduct 'table top' exercises – playing through the execution of each multi-hazard plan using an actual school and neighborhood layout diagram.
 - The Safety Team is made up of:
 - Head of Schools
 - Elementary School Director

- Middle School Director
 - Director of Operations
 - Security/Safety Agent
 - School Nurse
- NCSH will review the details of its Safety Plans with all faculty and staff prior to school opening, ensuring all are clear on all roles and responsibilities as well as logistics. Staff will sign off on having reviewed and understood School Safety Plans.
 - NCSH will review all emergency response plans with students within the first 2 weeks of school, to ensure all students understand expectations for their action/behavior and that of the entire school community.
 - NCSH will conduct the mandated actual safety (fire and intruder alert) drills as follows: two intruder alert drills, one in September and December. These drills will be conducted in coordination with local emergency response and preparedness officials, as follows:
 - The School will schedule the dates and times of drills with local officials.

Implementation of School Security

School Safety/Security roles at NCSH are expected to be as follows:

- School Security – Alex Lewis

During the school day our school security officer will be located at the lobby monitoring the main entrance doors and camera monitor

Vital Education Agency Information

An updated School Staff contact list (with cell phone numbers) will be maintained by the main office staff and placed within the school's main offices. This binder will also contain: a list of all local emergency contact names and numbers (police, fire, hospital, Board Members, and local officials), Emergency Contact Information for all school staff, and a sheet with the demographics of the school (number of students, number of staff, organization chart for the school). Next to that binder will be a 'Student Emergency Contact Binder' with Emergency Contact sheets for each student.

Hazard Identification

Through a walkthrough and in consultation with local police and School Security staff, as part of developing the School Safety Plan, the School Safety Team identified the following potential emergency sites and situations:

Potential Emergency Site	Related Potential Emergency Situation	Risk Reduction Plan
School Building – Gym	Student confrontation / Intruder Alert	Have stairwells and other isolated areas monitored during transitions.
Cafeteria	Student confrontation	Always have 2-5 staff within cafeteria while students are there.

Bus Release Time	Student confrontation / Intruder / lost child	Ensure enough staff are monitoring children that use busing services.
------------------	--------------------------------------------------	-----------------------------------------------------------------------

RESPONSE

Notification and Activation (Internal and External Communications)

Upon the occurrence of a violent incident, building leadership will contact the appropriate local law enforcement officials. A list of local law enforcement officials and contact information will be maintained in the School “Emergency/Safety” Binder in the Main Office.

In the event of disaster or violent act, as necessary the Leadership will also notify all staff via all call page if immediate communication is required, or via conducting an emergency staff meeting if the situation does not require immediate communication.

As necessary, the School will notify parents of a violent incident or early dismissal through use of the One Call System and/or email and/or an Advisory phone chain (faculty members call all parents within their Advisory). Parent contact information will be maintained on Student Emergency Contact forms, and with a school-wide email group.

Note – Families will be instructed in the Family/Student Handbook as to where to find update information and contact numbers for the school in the event of any emergency situation.

RECOVERY

Disaster Mental Health Services

Disaster Mental Health Resources will be coordinated directly by NCSH (acting as District) in support of Post-Incident Response Teams.

After the recovery stage of any incident, the NCSH School Safety Team will conduct an internal Post Mortem that will include re-evaluations of violence prevention and school safety activities as appropriate to improve our plan. Updates to the Safety Plan will be made as appropriate.

Emergency Assignments, Egresses and Relocation Sites

Emergency Egresses

Every room occupied by students and/or staff, including those used intermittently throughout the day, must have a primary and alternate route to exit the room and, ultimately, the building.

When the Head of Schools and/or the Incident Commander (from NYPD, FDNY, OEM, DOHMH, or another designated external agency overseeing management of the emergency) have made the decision to evacuate a school building, students, staff, and visitors to the building must exit using the designated egress and/or alternate egress route posted in each room within the building.

Relocation Sites

Short-term relocation sites should provide shelter to students and staff and allow for easy communication with Borough Safety Directors and other external support. Short-term Relocation Sites should be able to serve the instructional and educational needs of the relocating school for approximately one week.

The Head of Schools or designee as identified in the safety plan “chain of command” is responsible for all students and staff at the relocation site. The Head of Schools or designee as identified in the safety plan “chain of command” is responsible for all students and staff at the relocation site.

The primary and secondary relocation sites should be in close proximity to the main school site. In an emergency that affects the school’s entire neighborhood or a larger area, the primary and secondary location may be rendered unusable. In such cases, the third, “out of area” location should be used.

In situations where relocations may extend past one week (known as long term relocation) the [School leader/authorizer] will determine an appropriate relocation site that may not be listed in the safety plan to accommodate the needs of multiple schools. As a result, this may also occur when an emergency requires the simultaneous relocation of multiple schools that have identified the same relocation site. Principals will be informed of the long-term relocation site.

Evacuation routes/locations will be determined by the emergency response teams and will be listed in the Building-Level Plan.

Shelter-In

Designate school staff members who will be responsible for reporting to specific building exit doors during a Shelter- In.

During a Shelter-In all exit doors including kitchen doors and loading docks must be secured to prevent entry/egress during a Shelter-In emergency.

The Head of School should not be assigned to exit doors. A School Security Guard can be assigned to exit doors.

Shelter-In vs. Lockdown

The differentiation between Shelter-In and Lockdown is a critical element in GRP. A Shelter-In recovers all students from outside the building, secures the building perimeter and locks all outside doors. This would be implemented when there is a threat or hazard outside of the building. Criminal activity, dangerous events in the community, or even a vicious dog on the sidewalk would be examples of a Shelter-In response. While the Shelter-In response encourages greater staff situational awareness, it allows for educational practices to continue with little classroom interruption or distraction. Lockdown is a classroom-based protocol that requires locking the classroom door, turning off the lights and placing students out of sight of any corridor windows. Student action during Lockdown is to remain quiet.

Emergency Communications/Command Post

For emergency situations where the Building Response Team (BRT) is activated, a command post must be established. This includes times when a building/school may need to Lockdown, Shelter-in, or Evacuate. The command center is the single location where all principals will report to gather and disseminate information to the members of the Building Response Team. The BRT Leader will obtain updates from activated BRT members and provide information to all principals so that a single decision can be made to ensure the safety of all staff and students.

All buildings will identify a Primary (internal) location as well as an Alternate (internal) location to be used as a command center.

These locations should have specific equipment and materials readily available. This includes; floor plans; bullhorns; radios; batteries and chargers; and working telephones. In cases where an evacuation is necessary the command center will need to be established outside the perimeter of the school site, in close proximity to the building at a location that will not interfere with first responders performing emergency operations. The external command center should be located in a location that can allow for schools to communicate with first responders.

Reminder: During Bomb Treats or incidents of suspicious packages, electronic communications (**Cell phones, 2-way radios**) is prohibited until authorized by first responders.

Medical Emergency Response Information

Health Protocols

Health information should be reviewed by a nurse, administrative staff, or other trained staff, in consultation with medical professionals. The person at your school (may be same as above) who is responsible for reviewing information about health conditions and consulting with medical professionals, as appropriate, is:

School	Name	Title
NCSH	Derrica Newman	Director of Operations

AED (Automated External Defibrillator) Procedures

According to New York State Education Law Section 917, all public schools must provide and maintain AED equipment at strategic locations to ensure access for use during medical emergencies. Whenever public-school facilities are used for school-sponsored or school-approved curricular or extracurricular events or activities and whenever a school-sponsored athletic contest is held at any location, school officials and administrators must ensure the presence of at least one AED/CPR certified staff volunteer. Where a school-sponsored competitive athletic event is held at a site other than a public school facility, school officials shall assure that AED equipment is provided on-site.

Public school facilities are deemed “public access defibrillation (PAD) sites” and are subject to the requirements and limitations of this definition. Schools are required to post a list of the locations of each AED unit at their main entrance. Ensure your AED location poster is posted at the school’s main entrance and is easily visible. You may print your AED location poster from the Department of Education’s AED vendor Emergency Skills, Inc.’s (ESI) web site <http://doe.emergencyskills.com/mainpage.php>.

Please note you will need to be logged in to your school’s profile to do this as each AED poster is customized per school.

1. Training

- a. Each school building should ensure that at least 2 school personnel are trained. Schools that share a building are required to maintain adequate AED/CPR certified staff volunteers.
- b. All coaches of intramural sports must maintain the required AED/CPR certification at all times.

Training certification must include successful performance of use of the AED, CPR for adults, children, and infants, and choking procedures for adults, children, and infants. Training provided by ESI is the best way to ensure staff has received appropriate training. In addition to the training provided by ESI, the DOE currently accepts certifications approved by the American Heart Association (AHA) and the American Safety and Health Institute (ASHI). Please note that if training is obtained from an agency other than ESI, reimbursement of any associated costs is not available as our contracted vendor provides the training free of charge to all staff.

2. Contact Person

- a. Each principal must designate an AED contact person to coordinate all AED activities at the school.
- b. The AED contact must have a work email address that he or she checks daily and responds to. Do not designate a person without access to a computer at work, or with a personal email address (e.g. AOL, hotmail, or yahoo).

3. Drills

- a. Each school has an AED Site Response Plan, as generated in the school safety plan, indicating the steps to be performed during an actual medical emergency.
- b. Every school must issue a copy of the AED Site Response Plan to all employees, and must post it prominently in the school.
- c. Twice a year, representatives of ESI will make unannounced visits to the schools to perform mock drills of the AED Site Response Plan. Schools may not receive advanced warning of these visits, and cannot reschedule them. Schools are expected to participate in the drill as it is the best way to ensure they are ready to respond in the event of an actual emergency which can occur at any time,
- d. Each school will be evaluated on its emergency readiness during each drill.

4. Incidents

Immediately report any incident requiring the use of an AED to the Office of School Health at (718) 391-8227 and ESI at (212) 564-6833. It is imperative that incidents be reported to OSH in a timely manner as data from the AED unit utilized must be retrieved and an incident report is required to be filed within 5 business days of the incident.

Emergency Situations, Procedures and School Community Notifications

The key to handling a crisis, disaster or emergency at the school level is to have plans and protocols in place that are regularly practiced by administrators, staff and students.

This section outlines protocols intended to guide administrators and staff in maintaining calm and order during an emergency. The identified examples reflect the types of events that can or may occur in schools. This list is not intended to be exhaustive.

Notifications to the School Community

After a serious incident has occurred (especially any time a General Response Protocol action has been taken), school officials may need to consider notifying families of what occurred. Notifications must be approved by your legal counsel and executive director before sending them to families.

911 Protocols

Can 911 be dialed from any phone in the building(s) included on this plan?

No

Dialing prefix:

N/A

Shooting (OUTSIDE OF THE SCHOOL)

Please note: Schools may decide to, or be directed to Shelter-In or conduct an Evacuation. They must be prepared for both scenarios.

NOTIFY Head of School/designee, Borough Safety Director and the School Security Guard or Supervisor.

Follow the GRP protocol for Shelter-In, as outlined in the previous section.

CONTACT:

- 911 – Be prepared to provide:
 - Your NAME and TELEPHONE NUMBER
 - ADDRESS of the school/facility
 - DESCRIPTION of the situation (including number of people involved) and location
 - DESCRIPTION of the shooter / hostage taker
 - TYPE of weapon, if any
 - ENTRANCE for first responders to use, if possible
- Emergency Information Center / Communications Control Center, 718-935-3210
- BRT Leader (who should activate the BRT)

Decision to Shelter-In should be made by Principals/BRT Leader in consultation with SSD.

Note: in some cases the Shelter-In may require the assigned BRT members to report to their assigned exit doors. The Incident Assessor should report to all posts and ensure that BRT members have the required equipment.

Floor Wardens should be deployed to each floor to assist in the Shelter-In, and assist in assessing conditions throughout the building to determine in an internal relocation of some classes is required.

If determined in conjunction with first responders, Evacuate the premises following routes outlined in [Section 7, Emergency Assignments, Egresses, and Relocation Sites].

If the building cannot be re-entered, evacuated students and staff with attendance information are to be sent to the Evacuation Location as identified in [Section 7, Emergency Assignments, Egresses, and Relocation Sites].

The Office of Pupil Transportation must be notified for those children who take the bus home.

The BRT Leader should work with first responders to identify the location, number and extent of injured persons. If the victim is part of the school community (staff or student), retrieve the victims' information with home contact numbers and make notifications as necessary.

School Security Guard / Head of School will provide respective Supervisors and arriving agencies with vital information.

For those children who are picked up from school, the parents/guardians need to be advised of the situation and staff should remain at the evacuated school to direct the parents/guardians to the Evacuation Location for pickup.

Bomb Threat

Please note: Schools may decide to, or be directed to Evacuate or conduct a Soft Lockdown. They must be prepared for both scenarios.

IF YOU OBSERVE A SUSPICIOUS PACKAGE, DO NOT TOUCH IT. ALL BOMB THREATS

All communications by LAND LINE or IN PERSON ONLY (No radio or cell phone transmissions).

- CALL 911 and EIC, (718) 935-3210.
- Provide the following information: Your **NAME** and **TELEPHONE NUMBER, ADDRESS** of the school/facility, **DESCRIPTION** of the threat, and **LOCATION** of bomb inside the building (if known).
- Follow instructions provided by the 911 operator.
- TURN off all **RADIOS, WIRELESS DEVICES, CELL PHONES, BLACKBERRIES**, etc. Such devices **MAY** cause a bomb to detonate.

BOMB THREAT BY PHONE

- CHECK caller ID to see if there is a number and note down.
- KEEP the caller **ON THE LINE** as long as possible (Do not hang up on the caller).
- LISTEN CAREFULLY, be polite and SHOW INTEREST.
- Try to KEEP the caller talking so that you can gather more information.
- ASK the following questions:
 - WHEN is the bomb going to explode?
 - WHERE is the bomb right now?
 - WHAT does the bomb LOOK like?
 - What KIND of bomb is it?
 - WHERE are you CALLING FROM?
 - WHY did you place the bomb?
- STAY ATTENTIVE to the following:
 - BACKGROUND sounds and other identifying information on caller's location

- Voice Characteristics & Speech Patterns
- Try to WRITE DOWN or record the conversation. (Use BOMB THREAT CHECKLIST on next page.)
- Write down the exact TIME the call was received and the LENGTH of the call.
- Dial *69 (return call) or *57 (caller ID).

BOMB THREAT BY LETTER, E-MAIL, VOICEMAIL, FAX, GRAFFITI

- PRESERVE threat evidence; do NOT delete or erase.
- Do NOT handle the item and isolate if possible.
- MAINTAIN crime scene. Do not clean anything around the area.

NOTIFY

- IN PERSON or on a LAND LINE ONLY, notify Head of School or BRT Leader and School Security Guard or Supervisor, and EIC (No radio or cell phone transmissions). ALERT them to the situation and the phone call that was made to 911, and PROVIDE a description of the threat.
- If evacuation is necessary follow GRP Protocols for evacuation and the procedures as shown in [Section 7, Emergency Assignments, Egresses, and Relocation Sites], and assist as necessary.
- In cases where a reported/suspected explosive device is found, the ranking NYPD member at the scene is in command. S/he will consult with ranking Fire Officer and other City Officials, if present, to determine if further evacuation is required or if emergency action taken should be expanded or curtailed.
- If evacuation is not necessary, initiate the procedures for a Soft Lockdown and assist first responders with a search of the building, if requested. No one is to re-enter the building/affected area without authorization from appropriate agency.
- If building cannot be re-entered, Transportation Operator must be notified for those children who take the bus home. For those children who are picked up from school, parents/guardians need to be called and advised of the situation; staff should remain at the evacuated school to direct the parents/guardians to the Evacuation Location for pickup.

FOLLOW UP

- VERIFY that the Head of Schools notified the EIC.
- OBTAIN written statements from all witnesses and deliver to the Head of School only if approval is given by NYPD Incident Commander.

- ENSURE that the Bomb Threat Checklist from SSP is filled out.

Fire/Evacuation Emergency

CONTACT

- 911
- Head of School (notifies the Borough Safety Director)
- Emergency Information Center, (718) 935-3210
- BRT Leader (activates the Building Response Team)
- Custodial Engineer

PULL FIRE ALARM

ASSESS

- Stay AWARE and ALERT.

NOTIFY

- NOTIFY Head of School or BRT Leader, and Custodial Engineer of the LOCATION and EXTENT of the emergency situation.

ACTIONS TO TAKE

- ASSESS safety of egress routes.
- If primary egress contains smoke, do not use.
- Feel door with back of hand and if hot, do NOT open.
- Follow GRP for Evacuation and the procedures as defined in [Section 7, Emergency Assignments, Egresses, and Relocation Sites]. An alarm must be sounded and all students and staff must be evacuated when an emergency arises or is suspected. The decision must be made immediately; investigation of the emergency should be made after everyone has safely left the building.
- Close fire doors and other doors to contain fire.
- Direct people to evacuate away from fire and smoke.
- The Head of School or BRT Leader should assign a BRT member to join a custodial staff member to direct first responders to the scene.

- Prepare for EARLY DISMISSAL or TRANSPORTATION OF STUDENTS, if necessary. The decision to evacuate will be made only by Principal/BRT Leader in consultation with NYPD SSD. No one is to re-enter the building without authorization from appropriate agency.
- If the building cannot be re-entered, evacuated students and staff with attendance information are to be sent to the Evacuation Location as identified in [Section 7, Emergency Assignments, Egresses, and Relocation Sites]. In addition, the Office of Pupil Transportation must be notified for those children who take the bus home. For those children who are picked up from school, the parents/guardians need to be called and advised of the situation and staff should remain at the evacuated school to direct the parents/guardians to the Evacuation

Location for pickup.

FOLLOW-UP

- CONFIRM that the Head of School has updated the Emergency Information Center.
- When fire is extinguished, recharge all used fire extinguishers immediately.

Fire Safety & Fire/Evacuation Drills

All school staff should receive an annual orientation session concerning fire safety at the beginning of each year. By the end of this session, participants should:

- Know appropriate methods of transmitting an alarm, including telephones, fire alarm boxes in the school building, and street fire alarm boxes. (Pull-lever stations for the interior alarms are at various locations in the school building, generally near stairs or exits; these interior alarms do not transmit a signal to the Fire Department.);
- Know the location and proper use of fire alarm signal boxes, fire extinguishers, and other fire-fighting apparatus;
- Understand regulations regarding flammable materials, stage settings, decorations, electrical equipment, chemical substances in laboratories, and other potential fire hazards; and,
- Know fire exit drills and evacuation plans.

Fire/Evacuation Drills

Frequent unannounced drills, implemented with proper leadership and discipline, help ensure safe evacuation in an actual emergency. Drills should be planned in advance, and fire safety/evacuation information should be posted conspicuously throughout the building.

1. Purpose

- The purpose of fire/evacuation drills is to instruct and train students and staff in emergency evacuation procedures so that they might leave the school building in the shortest time possible and without panic in the event of an actual emergency. On hearing the fire signal (three gongs, four times), pupils (under the leadership of teachers and other school staff) must go to the street without delay.

2. Frequency and Monitoring

- AS REQUIRED BY STATE LAW, THE PRINCIPAL SHALL HOLD EMERGENCY DRILLS NO LESS THAN TWELVE TIMES IN EACH SCHOOL YEAR, EIGHT OF WHICH SHALL BE HELD PRIOR TO DECEMBER 31. OF THE REQUIRED TWELVE EMERGENCY DRILLS THAT MUST BE CONDUCTED, FOUR DRILLS MUST BE LOCKDOWN DRILLS AND THE REMAINING EIGHT MUST BE EVACUATION DRILLS. Neglect by a Principal, or other person in charge, to comply with the above requirements is a misdemeanor punishable by a fine and/or imprisonment.
- In buildings with fire escapes, at least four of the drills shall include the use of such escapes.
- In buildings in which summer school is conducted, at least **two additional fire/evacuation drills** shall be conducted, one of which shall be held the first week of summer school.
- A record and evaluation of each fire/evacuation drill shall be maintained. All drill reports completed by Principals are to be entered in the **DOE online Fire/Evacuation Drill** data entry page within 48 hours of the commencement of the drill.

3. Guidelines

- All students and staff in the school must obey fire drill signals and regulations.
- Equal emphasis should be placed on evacuating the school in a quick and orderly fashion. No running or horseplay shall be tolerated.
- Fire/Evacuation drills shall be conducted under varying circumstances at varying hours and at unannounced times to simulate actual emergency conditions. (For example, one exit should be blocked by closing off the exit area during the fire drill.)
- Ringing the fire bell is the usual signal for a drill. However, staff and students should be aware of alternate procedures in case of malfunctioning of the bell system. Alternate signals, such as classroom bells, public address announcements, hand bells or messengers, may be used.
- Instructions involving fire/evacuation drills and evacuation paths to be used shall be posted in every classroom, auditorium, and cafeteria. (Note: Fire/Evacuation Drill Posters may be ordered in packages of twenty-five from the Division of Contracts and Purchasing online catalog four times per year -- choose item #11252590007 on the FAMIS portal.)
- Details of the school's fire drill/evacuation plan should include the current number of students in holding rooms. Holding rooms are designated areas where physically handicapped students and staff wait for the Fire Department. The Fire Department will provide means of egress, when necessary. The fire drill is not complete until all students are out of the building or in holding rooms. Holding rooms must be left unlocked during occupancy.
- Teachers shall bring attendance information with them to ensure the safe evacuation of all students.

Missing Student Protocol and Responding to Door Alarms

In order to ensure a safe learning environment, it is important that all staff members are familiar with the **Missing Student Protocol and the Response to Door Alarms Document** which provide guidance on the steps that must be taken when a student is reported lost or missing, and when a door alarm is activated Both documents describe when it is appropriate to activate these protocols. In addition, the elementary school staff should be familiar with the protocol that must be followed when an elementary school student is observed leaving the school building or school grounds without authorization.

Using the Missing Student Protocol

This protocol **must** immediately be followed when a student has been reported missing, the student's whereabouts cannot be confirmed, and there is concern for the student's safety or well-being. Schools must be prepared to initiate a soft-lockdown **AND** assign staff to secure the exit doors in an effort to prevent the student from leaving the building.

The Missing Student Protocol is not always an appropriate response and therefore should not be activated for every situation where a child leaves class or a school building without authorization (i.e. cutting), as the DOE has existing procedures to address these situations. Regardless of whether the protocol is activated, parents must be informed whenever a student leaves a school building without authorization.

In determining whether to activate the protocol, the following shall apply:

The protocol must be activated if the whereabouts of the following students cannot be immediately confirmed:

- All students in Grades K-5
- Any student who has a known physical or emotional condition, or a cognitive disability which interferes with his or her ability to travel independently and interact with the community

In all other situations, schools must consider a number of relevant factors in determining whether the situation requires the activation of the protocol, including:

- Whether the student has a prior history of leaving the building
- Whether the student is dealing with a crisis/trauma or is otherwise vulnerable
- Whether the student's parent has informed the school of a prior commitment or appointment that requires the student to leave early
- Whether the age and/or maturity of the student is a cause for concern regarding the student's well-being.

THE FOLLOWING STEPS MUST BE TAKEN IF IT IS DETERMINED THAT THE MISSING STUDENT PROTOCOL SHOULD BE ACTIVATED

If it is confirmed that the student has exited the building:

Immediately call 911 (including transit police), and notify the Head of School/Designee, Emergency Information Center (EIC), and the Borough Safety Director (BSD). Provide a clear description of the student, to include the information below:

- Height and approximate weight
- Ethnicity
- Complexion and hair color
- Attire and any distinguishing features
- Verbal or non-verbal
- Languages spoken

In addition, it should also be noted where the child was last observed.

Notify the School Security Guard in the building

Immediately monitor the video surveillance system (if applicable) including perimeter cameras.

Notify the parent.

Review the Blue Card to identify any relatives listed who may live near the school. This information may be relevant in locating the missing student

Activate the Building Response Team (BRT) and open the Command Post and gather all relevant information necessary to work with first responders and law enforcement (description of the student, blue card information, photograph (if available)). If applicable, review the student's

Individual Education Plan (IEP) to determine what additional supports are required.

When the parent arrives at the school, escort the parent to the Command Post so that the parent may discuss the incident with school officials and law enforcement. Where applicable, have the parent coordinator accompany the parent in order to provide additional support to the family. A representative of the school crisis team should also report to the Command Post to provide support to the family.

If it cannot be confirmed that the student has exited the building:

Notify the Head of School/Designee and the School Security Guard.

Provide a clear description of the student, including where the child was last observed. Include the information below in the description:

- Height and approximate weight
- Ethnicity
- Complexion and hair color
- Attire and any distinguishing features
- Verbal or non-verbal
- Languages spoken

Activate the BRT, and open the Command Post. Provide all BRT members, School Security Guards, Shelter- In staff, and floor searchers, a description of the student, and if available, a photograph of the student. If applicable, review the student's IEP to determine what additional supports are required.

Immediately monitor the video surveillance system (if applicable) including perimeter cameras. Immediately monitor the video surveillance system (if applicable) including perimeter cameras.

If the student is observed on the camera system, immediately deploy search staff to the location where the student was observed. This includes areas outside of the school building.

Inside the building, all rooms and offices, including restrooms and access to the basement must be searched.

After an initial sweep of the building, if the student has not been located, immediately call 911 (including transit police), EIC, and the Borough Safety Director.

If available, provide law enforcement with a photograph of the missing student.

Notify the parent of the student and continue searching the building. Review the Blue Card to identify any relatives listed who may live near the school. This information may be relevant in locating the missing student.

When the parent arrives at the school, escort the parent to the Command Post so the parent may discuss the incident with school officials and law enforcement. Where applicable, have the parent coordinator accompany the parent in order to provide additional support to the family. A representative of the school crisis team should also report to the Command Post to provide support to the family.

Follow-up steps for all students:

Schools are required to use appropriate guidance and other interventions to respond to all students who leave class or a school building without authorization, regardless of whether the protocol is activated.

Schools must enter **ALL** incidents into the [Online Occurrence Reporting System \(OORS\)](#) and provide updates as needed.

In **ALL** incidents where a student leaves the building without authorization, schools must review existing building protocols with the student and other students where appropriate to prevent recurrence of similar behavior.

Reunification Planning Guide

There may be times when an emergency will require an evacuation and relocation to another building. When this occurs, dismissal procedures must be conducted in a safe and organized fashion by using procedures to account for all students who have been reunified with their families. Advanced planning, through the use of the Reunification Planning Guide, will result in a successful reunification. Various factors must be considered during a relocation which include the number of people being reunited, the available space at the relocation/reunification site, and the appropriate security personnel that may be required. During these emergencies, school officials must work with staff and School Security Guards who respond to the relocation site to assist.

Reunification at all relocation sites will require:

- A minimum of four *pre-designated* rooms/ common spaces, or sections of the school yard (external only);
- A command post (established by the *host* building prior to the arrival of staff and students from the *relocation* building);
- Access to the medical office or an established medical station to facilitate basic first-aid if needed.
- Families must be informed in advance that identification will be required during the reunification process.

1- The Family Staging Area: Required staff (based on the size of the room and the number of parents): 1 Family Staging Area Coordinator (reporting to the Assembly Point Coordinator), 2-4 staff (to collect information), 1-2 School Security Guards.

2- The Student Staging Area: Required staff: 1 Student Staging Area Coordinator (reporting to the Assembly Point Coordinator), all classroom teachers, 1-2 School Security Guards, adding additional agents as necessary based on the number of students in the staging area.

<ul style="list-style-type: none"> • This area must be separated from the student staging area. • This area must be supervised by staff and School Security Guards. • Families must complete Part 1 of the Student Release Form, prior to being escorted to the Reunion Area. <p><i>Parents must be escorted to the Reunion Area in small manageable groups (i.e. 1 staff member: 5 family members)</i></p>	<ul style="list-style-type: none"> • Teachers are required to have their classroom evacuation folder including class rosters, daily attendance, and GRP assembly cards. • Students will remain with their class until they are reunited with a family member.
